

Document 3: TRY IT OUT

All we tried here is one approach of building a Chat bot and there are a lot of other options available as well. So put on your exploration hat and feel free to try them out. Here are some links that will help you along...

Varied options you can explore to build a chat bot are outlined below:

1. Microsoft Bot framework <https://dev.botframework.com/>
2. Chat Script <http://chatscript.sourceforge.net/>
3. Pandorabots <https://playground.pandorabots.com/en/>
4. Facebook Bot Engine <https://messengerplatform.fb.com/>
5. Rebot.me <http://rebot.me/page/about>
6. Imperson <http://imperson.com/>
7. API.ai <https://api.ai/>
8. VIV.ai <http://viv.ai/>
- 9 Aspect <http://www.aspect.com/in/solutions/self-service/aspect-customer-experience-platform-cxp>

As you explore the world of Chat Bots, if you find anything interesting, we'll be excited to hear about it! Do let us know at;
